SAFETY RECALL NOTICE

VOLUNTARY SAFETY RECALL CAMPAIGN # 06V-462

Dear UD Truck Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Nissan Diesel America, Inc. has decided that a defect, which relates to motor vehicle safety, exists in certain 2006 and 2007 Model Year UD3300 model vehicles produced between January 19, 2005 and September 13, 2006. The vehicle identified on the enclosed "AUTHORIZATION FOR RECALL SERVICE" card fits this description and our records list you as the owner of this vehicle.

The UD3300 medium duty truck equipped with the Allison Series 2500 Automatic Transmission is not available with an internal park position inside the transmission for use when the vehicle is at rest and not in operation. Therefore the correct automatic transmission shift lever assembly will not indicate a "P" Park position on the shift tower indicator plate. The vehicle involved may have been assembled with an incorrect shifter assembly indicating a "P" Park position is available for selection by the vehicle operator. This may mislead the operator into placing the shift lever into the indicated "P" Park position and exiting the vehicle without applying the parking brake and thus cause unexpected or uncontrolled movement of the vehicle without prior warning. Unexpected or uncontrolled movement of the vehicle may result in vehicle crash or collision with the persons in the path of the uncontrolled vehicle.

Nissan Diesel America, Inc. requests that you inspect your vehicle's Shift Lever Assembly for the "P" Park position as illustrated below. Your authorized UD Truck Dealer can also perform this inspection for you.

Figure #1 INCORRECT: Your vehicle will require the replacement of the Transmission Shift Lever Assembly. Please contact an authorized UD Truck Dealer as soon as possible to schedule an appointment to have the shift lever replaced at no charge to you. It is estimated that approximately 1.5 hours will be required to complete the repairs.

IMPORTANT: We would appreciate your bringing the "AUTHORIZATION FOR RECALL SERVICE" card with you to the UD Truck Dealer at the time of your repair appointment. If you do not have the "AUTHORIZATION FOR RECALL SERVICE" card, please provide the Vehicle Identification Number (VIN) for the UD Truck Dealer when scheduling your appointment to verify that your vehicle requires this recall service.

Figure #2 CORRECT: Your vehicle has the correct Transmission Shift Lever Assembly and no further action is required. Please complete the enclosed postage paid "AUTHORIZATION FOR RECALL SERVICE" card and return to Nissan Diesel America, Inc. Service Operations.

Federal regulations require that all vehicle lessors must notify all lessees within ten (10) days of receiving this notice.

TRUCKS
Nissan Diesel America, Inc.

You may be entitled to reimbursement of costs to repair a previous failure related to this recall. If you believe that you have paid for previous repairs related to this recall, please contact Nissan Diesel America, Inc. at (972) 756 - 5523.

If you no longer own or possess this vehicle, please fill in the requested information on the enclosed postage prepaid "AUTHORIZATION FOR RECALL SERVICE" card and return it to the Nissan Diesel America, Inc. Service Operations Department. This will allow proper identification and notification to the current owner of this vehicle.

You may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, DC 20590 or call the toll free Vehicle Safety Hotline at 1-888 -327- 4236 (TTY 1-800-424-9153); or go to <http://www.safercar.gov>, if you believe that either Nissan Diesel America, Inc. or the UD Truck Dealer has failed or is unable to repair your vehicle without charge.

We regret any inconvenience this recall may have caused. If you have any questions regarding this recall, you may call the Nissan Diesel America, Inc. Service Operations Department at (972) 756 - 5523.

Sincerely,
NISSAN DIESEL AMERICA, INC.
