Re: Notice Of Defect NHTSA #

To Ken Farrows

East Manufacturing Corp has reviewed our records for units that may have been manufactured with your IMT Steerable axle with f24 spindles

Any trailer that was registered with our warranty department will include the individual's or company names and addresses. Trailers that have not been registered may only include the dealer that received the unit. Our dealers keep their own records of customers that have purchased trailers.

I have included the entire VIN number for each unit under the heading "serial number"; the fourth character of the vehicle identification number designates our model type, D-dump trailer, F-frameless trailer, H-standard flatbed, L-lowboy flatbed, T-truck dolly, W-pup trailer, and U-unloader.

Please feel free to contact me with any questions.

Sincerely,

EAST MANUFACTURING CORPORATION

Jeff PRUITT
