Dear Valued Fleetwood Motor Home Customer:

This notice is sent to you in accordance with the requirements of the Motor Vehicle Safety Act.

WHAT IS THE PROBLEM?

On motor homes affected by this recall, the Kwikkee brand electric entry step, built with a control unit manufactured by American Technologies Corporation may develop an electrical short during cold weather, (temperatures of less than zero degrees Fahrenheit), causing the plastic case to ignite, making the step inoperable and possibly resulting in risk of personal injury, vehicle and/or other property damage.

WHAT SHOULD YOU DO?

Due to safety related reasons, please make certain your motor home is immediately inspected and repaired by contacting your selling dealer, and making an appointment to have this inspection and repair performed. If they are not available, another Fleetwood motor home dealer may do this work for you.

WHAT WILL FLEETWOOD DO?

Fleetwood will inspect and if necessary replace all American Technologies Corporation controls associated with the Kwikkee brand electric entry step. The total length of time your motor home will be out of service will depend on the dealer's work schedule.

If you have had this concern corrected previously, you may be eligible for reimbursement of your cost for that repair. For more information regarding this recall #60220, contact Fleetwood Owner Relations at 800-509-3418.

If you have changed your address or sold the motor home, please take a moment to provide the name and address of the person or dealership you sold it to on the enclosed **Vehicle Information Update Card** and return it to Fleetwood. This will allow us to update our records, and if necessary, notify the new owner using the information you provide.
