Subject: **Recall Model Year 1998 – 2000 A6, A6 Avant, S6, and S6 Avant
Driver's Side Dashboard**

Dear Ms. DeMeter,

This letter shall serve to amend our Notification of Recall submitted on July 20, 2006.

573.6 (c) (5) **Description of Defect**

Volkswagen has recently found new evidence of a potential second defect in the driver's side dashboard area. This potential defect is independent of the defect we have described in the notification from July 20, 2006. We are still in the process of investigating the details.

573.6 (c) (10) **Submission of Communications**

Volkswagen's goal is to fix both defects at the same time, because the preliminary evidence indicates the affected component is the same and that the scope of affected vehicles range is overlapping. Our plan is to establish a new implementation date by October 31, 2006.

Please contact me if you have any questions regarding this response.

Regards,

John Maddox
Compliance Officer
Volkswagen of America
