Pat,

We need to correct the total number of vehicles in the U.S. for this campaign. 141 units, although U.S. spec, were shipped directly to South America.

I need a campaign number, please.

Regards,

Shell

Shell

It maybe because our source data here in UK is build rather than sales.
So although we built X no of US spec bikes, we may have only sold Y no to you.

I have checked our bikes sold to US report which is 497, so suggest we declare 497

Kind regards
Charles
