Re: Recall of Braun manufactured General Motors conversion vehicles
NHTSA Recall Identification Number: 06V050

To Whom It May Concern:

With the following efforts having been completed, and the results listed below, The Braun Corporation would like to close the above captioned NHTSA Safety Recall. All parts needed to correct the safety issue were sent to all dealers, along with written and verbal notification. Subsequently, six written attempts to contact all affected dealers and end users have been sent. The sixth attempt ended in July, 2007. The results of the recall to date are listed below.

It is believed the non-responses primarily consist of end users, on whose vehicles the remedy has been performed, yet the return information card has not been received by Braun.

Total Number of affected vehicles: 584
Total Number of vehicles remedied: 443
Total number unable to be notified: 3
Total number of non-response: 137
Total number of vehicles no longer in use: 1

Sincerely,

A handwritten signature in black ink that reads 'Rick Nelson'.

Rick Nelson
Director of Product Support
The Braun Corporation
