NOTES

1/	"Procedures Completed" indicates the number of vehicles on which reports of action have been received from dealers and processed by Ford as of the end of the reporting period. Those in the "inspected" category were found to not require the recall service. Those in the "repaired" category did have the recall service performed.
2/	"Unreachable Vehicles" indicates the number of vehicle owners that could not be reached. "Undelivered" represents the number of first-class letters to owners of recalled vehicles, as shown on Company records, returned by the United States Postal Service for reasons such as addressee unknown, no such street number, or no such business office in the state. "Exported" represents the number of recalled vehicles reported to have moved out of the United States, its protectorates or territories. "Stolen" or "scrapped" represents the number of recalled vehicles reported to be either stolen or scrapped such that the safety recall service cannot be performed or is inappropriate. Those in the "other" category are vehicles either "modified" or where the owner "refused" the recall service.
