Recall Campaign No. 33 06 06 (R01)

Version 1 Page 1 of 1

Title: Rear Suspension Air Spring Recall

Group: 33

Situation: Replacement of rear suspension air springs due to possible manufacturing defect with the lower rubber mounting bush

Procedure

Using the kit search facility in Servicenet, check each Phantom prior to any workshop visit for outstanding service actions. If required please order two rear air springs and fitting kits in advance to minimise delay.

Under the National Traffic and Motor Vehicle Safety Act of 1966, as amended, if there has been a recall campaign, dealers must assure that all new vehicles and new items of replacement equipment are free of safety defects and comply with all applicable Federal Motor Vehicle Safety Standards at the time of delivery to the customer. This means that dealers may not deliver new motor vehicles or new items of replacement equipment to consumers unless the safety defect or noncompliance has been remedied before delivery.

Follow the repair instructions in Servicenet for the replacement procedure;
