GLOBAL ELECTRIC MOTORCARS, LLC

SAFETY RECALL – POWER SIGNAL DISTRIBUTION MODULE (PSDM)

SECOND NOTICE

Dear GEM Vehicle Owner:

Our records indicate that a safety recall affecting the Power Signal Distribution (PSDM) of your GEM vehicle has not yet been completed.

This second notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Global Electric Motorcars, LLC (GEM) has decided that a defect, which relates to motor vehicle safety, exists in some 2006 MY vehicles (2-Passenger, 4-Passenger, 6-Passenger, Short Bed, Long Bed).

The problem: Three bolts on the back of the Power Signal Distribution Module (PSDM) may not have been torqued properly by the supplier, which may cause a total loss of power to the vehicle. In some cases the vehicle may be restarted after the power loss or, in other cases, the vehicle cannot be restarted. A loss of power will render the car inoperative and, if it happens while driving, can render the vehicle a road hazard. Additionally, loss of headlamp, tail lamp or turn signal lamp functions could limit the vehicle's visibility to other drivers, increasing the risk of a crash.

What GEM will do: Global Electric Motorcars will inspect and replace, as necessary, the PSDM of your GEM vehicle free of charge (parts and labor). The work will take about 30 minutes to complete. However, additional time may be required depending on how appointments are scheduled and processed.

What you must do: Simply contact Global Electric Motorcars to schedule a service appointment. The number to call is (866) 764-0616.

If you have already experienced this condition and have paid to have it repaired, you may send your original receipts and/or other adequate proof of payment to the following address for reimbursement: Global Electric Motorcars, 1301 39th St. NW, Suite 2, Fargo, ND 58102-2807, Attention: Safety Recall No. 003.

If Global Electric Motorcars fails or is unable to remedy this defect without charge and within a reasonable time, you may submit a written complaint to the Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, DC 20590, or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to <http://www.safercar.gov>.

We're sorry for any inconvenience, but we are sincerely concerned about your safety. Thank you for your attention to this important matter.
