Subject: FCCC Front Axle Tie Rod Thread Engagement

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. This notice is also sent in accordance with the Canadian Motor Vehicles Safety Act.

Freightliner LLC, on behalf of its wholly owned subsidiary, Freightliner Custom Chassis Corporation, has decided that a defect which relates to motor vehicle safety exists on specific Freightliner Custom Chassis XC chassis manufactured with TRW AS120 suspensions and 12,000 lb. front axles built between April 4, 2005, and October 13, 2005.

Certain vehicles may have been manufactured with tie rods that are too short for the axle assembly. The tie rod ends may separate under certain conditions, resulting in reduced steering control. Such an event may lead to a crash without prior warning.

The tie rod will be inspected and assemblies that are too short will be replaced.
