OFFICE OF DEFECT INVESTIGATION
NHTSA

**Ms. Kelly Schuler
Office of Defect Investigation
National Highway Traffic Safety Administration
400 Seventh St., SW
Washington, DC 20590**

Subject: NHTSA Campaign Number 07E-005

Dear Ms. Schuler:

After further review of our sales, production, and shipment data, we have identified some discrepancies in our original Defect and Noncompliance Report recall population. A shipment of 106 was counted in the recall population that was, in fact, built before the recall date. Also, a few units were shipped during the recall period that were not sold and were not counted in the original report.

These corrections have been made in the attached Defect and Noncompliance Report amendment. This amendment changes the total recall population from 3009 to 2934.

Thank you for all of your help.

**Dean Molde
VP Engineering and Quality
Rostra Precision Controls**

Attachment: Defect and Noncompliance Report Amendment Jan 30

II. Identifying the Recall Population

3. Furnish the total number of items of equipment recalled potentially containing the defect or noncompliance.
