RE: Federal-Mogul Corporation: Part 573.6 Notification

Dear Administrator:

This letter constitutes the submission, pursuant to 49 CFR § 573.6, of Federal-Mogul Corporation regarding certain replacement wheel hub assemblies.

Section 573.6 Information Report

1. Full corporate name of fabricating manufacturer/brand name/trademark owner of the recalled item of equipment.

Brand Name: These replacement hub assemblies were packaged and sold by Federal-Mogul under the following brand names: National, CARQUEST.

Corporate Name: Federal-Mogul Corporation
26555 Northwestern Highway
Southfield, MI 48033-2146

Corporate contact official:

Julie A. Hallauer
Director of Engineering
Federal-Mogul Corporation
26555 Northwestern Highway
Southfield, MI 48033-2146
juliea.hallauer@federalmogul.com

2. Items of Equipment Involved in this Recall.

Generic name of item: Wheel Hub Assembly

Associate Administrator for Enforcement

Attention: Recall Management Division (NVS-215)
December 13, 2007
Page Two

These are replacement wheel hub assemblies sold for light duty and medium duty trucks. Federal Mogul shipped the wheel hub assemblies between January 23, 2006 and December 10, 2007 to various commercial customers for resale to and/or installation in their customers' vehicles.

The Federal Mogul part numbers affected are:
515020, 515021, 515025, 515053, 515054, 515059, and 515060.

See attachment for the Identification Characteristics of Recalled Parts; the recalled parts must satisfy part number, brand, country of origin, and manufacturing date code.

Federal Mogul purchased the subject hub assemblies from:

ILJIN Corporation USA
Craig Loffman
President, ILJIN USA
28055 Haggerty Road
Novi, MI 48377-2902
1 248 848 1026
Fax: 248.848.0560
Cloffman@iljin.com

ILJIN manufactured the recalled hub assemblies from December 27, 2005 to November 29, 2007. See Paragraph 6 below for further explanation of hub assemblies recall date parameters.

3. Total number of items of equipment recalled potentially containing the defect or noncompliance.

Approximately 130,000

4. Approximate percentage of total number of items of equipment estimated to actually contain the defect or noncompliance.

Indeterminate

Page Three

5. Description of defect or noncompliance and potential consequence.

The inboard retention nut used to maintain hub bearing assembly can loosen resulting in an ABS light indication, noise, and/or wheel separation.

6. Chronological summary of principal events that were basis for determination of defect.

In early November 2007 Federal-Mogul became aware of two reported incidents of wheel separation. Federal-Mogul promptly inquired of the supplier regarding nut retention. Federal-Mogul's internal investigation and dialogue with the manufacturer continued into early December. On or about December 3, Federal-Mogul became aware of a third incident. By December 6, based on further inspection and engineering review by Federal-Mogul and its supplier, Federal-Mogul decided that a defect existed in the subject assemblies.

7. Description of FMVSS Noncompliance

Inapplicable

8. Description and estimated timing of remedy program.

Federal-Mogul will replace the recalled hub assemblies free of charge. Federal-Mogul estimates that it will be able to begin notification of the Federal-Mogul recall to its customers within five business days after NHTSA approval of the Part 577 notification letter and that such mailings will be completed within ten business days.

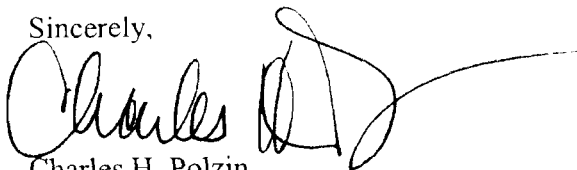

9. Copies of all notices, bulletins, and other communications that relate directly to the defect or noncompliance and which are sent to more than one manufacturer, distributor, or purchaser.

Copies will be provided to NHTSA.
