Dear Mr. Smith:

Subject: Amendment to Land Rover's Notification Letter for Recall No. B016
Certain 2005-2006 Discovery LR3 Vehicles – Petrol Fuel Tanks

Land Rover is updating this letter to revise the end date of the recall and the number of involved vehicles. Land Rover has learned that the interim containment actions that were the original basis for the end date of the recall were not 100% effective. As such, Land Rover has decided to extend the recall to the date of the permanent corrective actions implemented by the fuel tank assembly supplier.

Information in the Part 573.6 (c) (2) section is being revised to provide information concerning the scope of the affected vehicles. Information in the Part 573.6 (c) (3) section is being revised to provide the number of supplemental involved vehicles. Information in the Part 573.6 (c) (8) section is being revised to provide the owner notification timing for the supplemental vehicles. Finally, information in the Part 573.6 (c) (11) section is being revised to provide a revised recall number to simplify Land Rover's administration of the supplement to this recall.

Sincerely,

A handwritten signature in black ink that reads "R. A. Vondale".

James P. Vondale
