Re: Defect Information Report; Vehicles Equipped with  
Certain Refrigerators Manufactured by Dometic Corporation

Dear Valued Customer:

Timberland RV Company d.b.a. Adventure Manufacturing has been advised by Dometic Corporation that certain Dometic refrigerators installed as original equipment in some of Adventure Manufacturing's recreational vehicles may contain a defect that relates to motor vehicle safety because they may experience a leak of pressurized coolant solution which can result in a vehicle fire under certain specific circumstances. A list will be provided which will include the model names of the vehicles with the recalled refrigerators. On the basis of that Dometic determination, Adventure Manufacturing has decided that there may be a potential safety defect in its vehicles equipped with the identified refrigerators, and we are therefore submitting the enclosed Defect Information Report pursuant to 49 CFR Part 573.

If you have any questions, please do not hesitate to contact the undersigned at 765-475-9500.

Sincerely,

Jeff Aspinwall  
Purchasing Manager

## DEFECT INFORMATION REPORT

### 1. Manufacturer's name/address:

The manufacturer of the vehicles covered by this Report is:

Timberland RV Company d.b.a. Adventure Manufacturing  
1482 N. Eel River Cemetery Rd.  
PO Box 1210  
Peru, IN 46970

### 2. Vehicles Involved:

The vehicles covered by this Report are recreational vehicles that were equipped with certain models of refrigerators manufactured by Dometic Corporation between April 1997 and August 2003. The vehicle models in question are as follows: (See attachment).

Timberland RV Company d.b.a. Adventure Manufacturing began unit production of travel trailers and fifth wheels beginning November 1999. The vehicles were manufactured during the period from November 1999 through August 2003.

### 3. Total number of vehicles:

The total number of vehicles covered by this Report is 5,794 units.

### 4. Approximate percentage of vehicles estimated to actually contain the defect:

Based on information received from Dometic, Adventure Manufacturing believes that approximately .06 percent of these vehicles could contain the defect.

### 5. Description of the defect:

Under some circumstances, a fatigue crack can develop in the boiler tube of the covered refrigerators, which can permit the release of pressurized coolant solution. If this solution is exposed to an ignition source under certain specific circumstances, it can result in a vehicle fire.

# ADVENTURE

## MANUFACTURING

1110 • Peru, Indiana 46970 • (765) 475-9500 • FAX (765) 475-9501

### **6. Chronological summary of events leading to this determination:**

Dometic advised Adventure Manufacturing of its defect determination by letter received 2/15/2007. Adventure Manufacturing is aware of only one fire in its vehicles that could be related to this defect. Nevertheless, after reviewing the matter, Adventure Manufacturing decided to submit this defect report.

### **7. Program for remedying the defect:**

Dometic has arranged to conduct a recall to remedy the potential defect in Adventure Manufacturing's vehicles at no charge to vehicle owners. See Recall No. 06E-076. Pursuant to 49 CFR 573.6(c)(8)(i) and 573.13, owners will be advised that Dometic will reimburse them if they have incurred costs to obtain a remedy for a refrigerator containing such a defect prior to their receipt of the notification.

### **8. CD Format in Excel**

In an effort to make this data available for import into your database, we have elected to send the information on a CD in Microsoft Excel format. This Excel spreadsheet contains all 5,794 units and includes vin number, ship date, known retail date, selling dealer, and known customer names and addresses.
