RE: Defect Information Report; Vehicles Equipped with
Certain Refrigerators Manufactured by Dometic Corporation

Dear Valued Customer:

Jensen Trailers has been advised by Dometic Corporation that certain Dometic refrigerators installed as original equipment in some of Jensen Trailers' vehicles may contain a defect that relates to motor vehicle safety because they may experience a leak of pressurized coolant solution which can result in a vehicle fire under certain specific circumstances. On the basis of that Dometic determination, Jensen Trailers has decided that there may be a potential safety defect in its vehicles equipped with the identified refrigerators, and we are therefore submitting the enclosed Defect Information Report pursuant to 49 CFR Part 573.

If you have any questions, please do not hesitate to contact the undersigned at 515/332-5963.

Sincerely,

A handwritten signature in black ink, appearing to be 'WJ', followed by a long horizontal line extending to the right.

Walter Jensen
President

STAMP: FEB 21 2007

STAMP: FEB 19 2007

RECEIVED

DEFECT INFORMATION REPORT

1. Manufacturer's name / address:

The manufacturer of the vehicles covered by this Report is:

Jensen Trailers / Jensen Enterprises Ltd.
811 North 13th Street, Humboldt. IA 50548

2. Vehicles Involved:

The vehicles covered by this Report are vehicles that were equipped with certain models of refrigerators manufactured by Dometic Corporation between April 1997 and May 2003. The vehicles were manufactured during the period from April 1997 through August 2003.

3. Total number of vehicles:

The total number of vehicles covered by this Report is: 3 [three]

4. Approximate percentage of vehicles estimated to actually contain the defect:

Based on information received from Dometic, Jensen Trailers believes that approximately .06 percent of these vehicles actually contain the defect.

5. Description of the defect:

Under some circumstances, a fatigue crack can develop in the boiler tube of the covered refrigerators, which can permit the release of pressurized coolant solution. If this solution is exposed to an ignition source under certain specific circumstance, it can result in a vehicle fire.

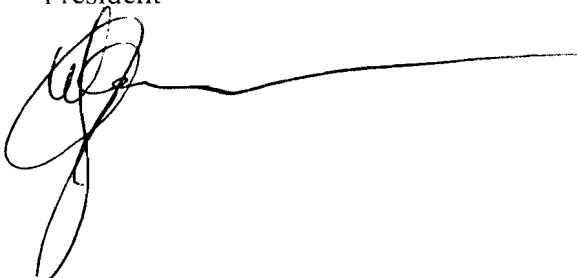

6. Chronological summary of events leading to this documentation:

Dometic advised Jensen Trailer of its defect determination by letter received February 14, 2007. Jensen Trailers is not aware of any fires in its vehicles that appear to be related to this defect. Nevertheless, after reviewing the matter, Jensen Trailers decided to submit this defect report.

7. Program for remedying the defect:

Dometic has arranged to conduct a recall to remedy the potential defect in Jensen Trailers' vehicles at no charge to vehicle owners. See Recall No. 06E-076. Pursuant to 49 CFR 573.6©(8)(i) and 573.13, owners will be advised that Dometic will reimburse them if they have incurred costs to obtain a remedy for a refrigerator containing such a defect prior to their receipt of the notification.
