RE: Defect Information Report; Vehicles Equipped with
Certain Refrigerators Manufactured by Dometic Corporation

Dear Mr. Smith:

Lazy Daze, Inc. has been advised by Dometic Corporation that certain Dometic refrigerators installed as original equipment in some of Lazy Daze's recreational vehicles may contain a defect that relates to motor vehicle safety because they may experience a leak of pressurized coolant solution which can result in a vehicle fire under certain specific circumstances. All Lazy Daze models were equipped with the recalled refrigerators. On the basis of that Dometic determination, Lazy Daze has decided that there may be a potential safety defect in its vehicles equipped with the identified refrigerators, and we are therefore submitting the enclosed Defect Information Report pursuant to 49 FR Part 573. .

We have elected to have Dometic Corporation administer the recall of our vehicles that contain defective Dometic refrigerators

If you have any questions, please do not hesitate to contact the undersigned at (909) 627-1103.

Sincerely,

LAZY DAZE, INC.

Stephen E. Newton

RECEIVED

DEFECT INFORMATION REPORT

1. Manufacturer's name/address:

The manufacturer of the vehicles covered by this Report is:

Manufacturer's Name: LAZY DAZE, INC.

Manufacturer's Address: 4303 Mission Blvd.
Montclair, CA 91763

2. Vehicles Involved:

The vehicles covered by this Report are recreational vehicles that were equipped with certain models of refrigerators manufactured by Dometic Corporation between April, 1997 and May, 2003. The Lazy Daze vehicle models in question are as follows:

Models:

22M	23½FD	23½FL	23½TB	23½RL
26½MB	26½RB	26½IB	26½RK	30IB
30TB				

The vehicles were manufactured during the period from April, 1997 through August, 2003.

3. Total number of vehicles:

The total number of vehicles covered by this Report is 1,229.

4. Approximate percentage of vehicles estimated to actually contain the defect:

Based on information received from Dometic, it is believed that approximately .06 percent of these vehicles actually contain the defect.

5. Description of the defect:

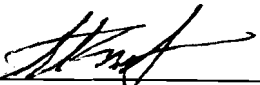

Under some circumstances, a fatigue crack can develop in the boiler tube of the covered refrigerators, which can permit the release of pressurized coolant solution. If this solution is exposed to an ignition source under certain circumstances, it can result in a vehicle fire.

6. Chronological summary of events leading to this determination:

Dometic advised Lazy Daze of its defect determination by letter dated February 19, 2007. Lazy Daze is not aware of any fires in its vehicles that appear to be related to this defect. Nevertheless, after reviewing the matter, Lazy Daze decided to submit this defect report.

7. Program for remedying the defect:

Dometic has arranged to conduct a recall to remedy the potential defect in Lazy Daze's vehicles at no charge to the vehicle owners. See Recall No. 06E-076. Pursuant to 49 CFR573.6(c)(8)(i) and 573.13, owners will be advised that Dometic will reimburse them if they have incurred costs to obtain a remedy for a refrigerator containing such a defect prior to their receipt of the notification.
