Re: Report Pursuant to 49 CFR 573.6
Autocar, LLC, Recall No. A-0703
NHTSA Recall No. 07E-034 (as assigned to Cummins, Inc)

The following information is in accordance with the requirements of 49 CFR Part 573.6 as it applies to a defect relating to motor vehicle safety.

573.6(c)(1)

Autocar, LLC ("Autocar")

573.6(c)(2)

Autocar, has determined that a defect which relates to motor vehicle safety exists in two 2008 WX heavy-duty class 8 vehicles built between November 17, 2006 and January 15, 2007 with serial numbers 204528 and 205371.

573.6(c)(3)

Two vehicles are affected.

573.6(c)(4)

Both of the affected vehicles contain the suspect part.

573.6(c)(5)

The Cummins Electronic Control Module (ECM) inhibits aftertreatment regeneration below 5.1 miles per hour (mph) road speed. In the two affected vehicles, the vehicles were designed to inhibit aftertreatment regeneration at road speeds greater than 5.1 mph. This is accomplished through direct input to the Cummins ECM via a command from the vehicle electronic control module or from a driver actuated dash switch. A software programming error in the Cummins ECM fails to recognize the direct inputs, which creates a risk of unintended (or unexpected) elevated exhaust temperatures.

Elevated exhaust temperatures do not create the risk of fire in the vehicle itself, could create the risk of fire if the vehicle's exhaust is in close proximity to materials or substances that can melt, burn, or explode.

573.6 (c)(6)

6/14/07 Cummins provided Autocar with a copy of its 573 letter submitted to NHTSA.
6/18/07 Cummins provided Autocar with assigned NHTSA Recall No. 07E-034, and Autocar initiated a voluntary recall.

573.6(c)(7)

Not applicable

573.6(c)(8)(i)

Autocar will initiate a voluntary owner notification and recall on the two affected vehicles.

573.6(c)(8)(ii)

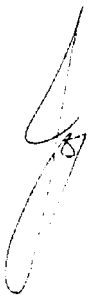

6/25/07 573.6 letter to NHTSA
7/11/07 Owner Notification Letter to Office of Defects Investigation
7/20/07 Owner Notification Letter to affected vehicle owners

573.6(c)(9)

Not Applicable

The number which Autocar has assigned to this recall for tracking purposes is A-0703.
