Dear Mr. Person:

Keystone RV Company ("Keystone") has decided that a defect which relates to motor vehicle safety exists in the recreational vehicles listed below, and is furnishing notification to the National Highway Traffic Safety Administration in accordance with 49 CFR Part 573 Defect and Noncompliance Reports.

- A. Recall Population and Vehicle Identification. The recall population includes the following product brands manufactured by Keystone.

<u>Product Brand</u>	<u>Number of Vehicles</u>
2008 Hideout HI23RKS08 Travel Trailers	11
Production Dates: 6/12/2007 to 6/14/2007	
VIN Range: 4YDT23R2X8N200666 – 4YDT23R258N200672	
4YDT23R288N200777 – 4YDT23R288N200780	

The total number of vehicles subject to this recall campaign is: 11

- B. Description of Defect. The vehicles subject to this recall campaign were manufactured the incorrect information on the Federal Identification Tag and the Tire and Loading Information Label. The GVWR rating listed on the current tag is 7660 lbs and it should be 8200 lbs and the axle rating is listed at 3500 lbs and should be 4400 lbs. Also, the tag lists the tire size as 205/75D14C with a maximum inflation of 50 psi and it should be 225/75D15D with a maximum inflation of 65 psi. Under inflating a tire could result in increase risk of tire failure, poor vehicle handling and property damage.

- D. Remedying of Defect. The remedy is to replace the Federal Identification Tag and Tire and Loading Information Label with the correct one supplied by Keystone.
- E. Owner Notifications. All units listed in recall are in dealer stock and none have been retail sold.
- F. Quarterly Reporting Requirements. Keystone will be filing quarterly reports in connection with this recall campaign.
- G. Campaign Number. Keystone's identification code for this recall is 07-090.
