RE: **Recall 07V537000**

Dear Associate Administrator:

Pursuant to 49 CFR Part 573, Monaco Coach Corporation ("Monaco" or the "Company") is submitting this report to NHTSA concerning a safety recall that was previously filed on November 14, 2007 with the following amendments:

573.6(c)(2)

The affected vehicles include the following fifth wheels in the United States population which are all of the same floorplan of 33SKQ only:

Holiday Rambler: 2007 Alumascap Suite Fifth Wheels (66)

McKenzie: 2007 Lakota Estate Fifth Wheels (28)

The affected fifth wheels were manufactured from June 17, 2006 through March 15, 2007.

573.6(c)(3)

A total of **ninety eight (98)** fifth wheels are in the total recall population. Of this total, **ninety four (94)** are in the United States and **four (4)** were exported.

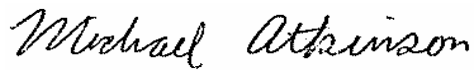

573.6(c)(4)

Monaco has determined that all of the fifth wheels in this recall population need to have the repair made. Two (2) fifth wheels in the United States recall population have been repaired therefore ninety two (92) fifth wheels are needing to be repaired, or approximately 98% of the recall population for the United States.

The recall population was determined from the manufacturing records for the Company's manufacturing facility in Elkhart, Indiana which produced the affected fifth wheels.

Repair instructions and final owner and dealer notification letters will be forwarded soon. The Company is prepared to begin owner and dealer notification in December 2007.

Sincerely,

A handwritten signature in cursive script that reads "Michael Atkinson".

Michael Atkinson
Recall Administrator
Monaco Coach Corporation
