RE: **Recall 07V582000**

Dear Associate Administrator:

Pursuant to 49 CFR Part 573, Monaco Coach Corporation (“Monaco” or the “Company”) is submitting this report to NHTSA concerning a safety recall that was previously filed on December 6, 2007 with the following amendments:

573.6(c)(2)

The affected vehicles include the following Class A Motorhomes in the United States population:

Holiday Rambler: 2007-2008 Arista (71)

Safari: 2007-2008 Passage (54)

The affected motorhomes were manufactured from December 5, 2006 through January 10, 2008.

573.6(c)(3)

A total of **one hundred and fifty six (156)** motorhomes are in the total recall population. Of this total, **one hundred and twenty five (125)** are in the United States and **thirty one (31)** were exported.

573.6(c)(4)

Monaco has determined that all of the motorhomes in this recall population need to have the repair made. Three (3) motorhomes in the United States recall population have been repaired therefore one hundred and twenty two (122) motorhomes are needing to be repaired, or approximately 98% of the recall population for the United States.

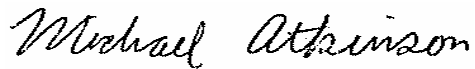

The recall population was determined from the manufacturing records for the Company's manufacturing facility in Warsaw, Indiana which produced the affected motorhomes.

573.6(c)(8)

Monaco will be sending a notification letter to all current owners of affected motorhomes in the recall population. The remedy will consist of a Monaco dealer installing an abs cover to protect the exposed terminal post. This repair will be performed for the owner at no charge.

Repair instructions and final owner and dealer notification letters will be forwarded today. The Company is prepared to begin owner and dealer notification in early March 2008.

Sincerely,

A handwritten signature in cursive script that reads "Michael Atkinson".

Michael Atkinson
Recall Administrator
