

Mack Trucks, Inc.

Safety

Recall

ALERT

Date: February 19,2007 **Number:** SRA-135-001
To: All U.S. & Canadian Distributors
Attention: Service Manager, Warranty Manager, Parts Manager, Dealer Principal
From: Regulatory Affairs Department
Subject: Safety Recall, SC0318, Chalmers Suspension

Safety Recall Summary:

On certain Mack CL, CT, CTP, CV, and GU model vehicles manufactured **from** September 9,2006 **through** November 20,2006 with a 46k pound Chalmers brand **rear** suspension, there is a potential that the adjustable torque rods used on the suspension may be brittle. This may lead to a premature failure of the rod, which may result in a loss of control of the vehicle.

The number of vehicles **affected** is **approximately** 86 (78 US **and** 8 Canada).

Dealer's Responsibility:

The National Traffic and Motor Vehicle **Safety** Act and Canadian Motor Vehicle Safety Act **requires** dealers to ensure that all new and **used** vehicles are **free** of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.

Dealers should make their personnel aware of the **safety** recall. In the event that a dealer has a vehicle **included** in the safety recall in their inventory to be sold, the condition must be corrected **before** releasing it to a customer.

Release Schedule:

Repair Instructions **are** tentatively scheduled **for release** no later **than** March 3,2007.

Vehicle list will be posted on the **Trucks** Dealer Portal February 19,2007.

Owner Notices are scheduled to be mailed on March 14,2007.

Questions:

Contact the Regulatory Affairs Department at vtna.regulatoryaffairs@volvo.com if you have questions.
