A Name You've Grown Up With

June 4, 2007

Dear Starcraft RV Dealer:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

It has been determined that a defect may exist with the frames we purchased from Dexter Chassis Group, and used on certain RT model camping trailers, during specific production runs in May of 2006. The frames on these particular units were "notched" to accommodate the fitting of the coupler. It is believed, now, that the frames could be weakened in this area which may allow them to crack.

You will be receiving a phone call from Mark Weaver, Quality Systems/HSE Manager for Dexter Chassis Group, regarding the process to be taken in resolving this issue. He has a list of serial numbers that could be involved and will ask you to identify the problem by (1) checking the number stamped into the coupler itself or, (2) looking for the notch in the frame. If the number on the coupler is 80060, this unit **must be reworked**. If the number is 80082 or 80083, **it does not**. If you have not heard from him and you feel you have a unit in question, please contact Mr. Weaver at 800-669-7681.

Owners of units involved in this recall will also receive a letter instructing them to contact their Starcraft dealer to have their camper inspected and repaired, if necessary.

FEDERAL LAW REQUIRES THAT ALL AFFECTED UNITS IN YOUR INVENTORY, OR ON YOUR LOT, MUST BE CORRECTED PRIOR TO DELIVERY UNDER A SALE OR LEASE.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this voluntary recall campaign, please feel free to give me a call.

Sincerely,

Joyce Skinner

Recreation Vehicles

A Name You've Grown Up With

June 8, 2007

Dear Starcraft RV Customer:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Starcraft has determined that a defect, which relates to motor vehicle safety, exists in certain 2007 RT camping trailers. According to our records, you are the owner of one of these campers. It has been determined that a defect may exist with the frames we purchased from Dexter Chassis Group, and used during specific production runs in May of 2006. The frames on these particular units were "notched" to accommodate the fitting of the coupler. It is believed that the frames could be weakened in this area, causing the frame to bow downward and crack. However, this does not result in detachment of the camper from the tow vehicle.

We will, through your Starcraft dealer, inspect the frame and make any necessary repairs. Your dealer has been notified and instructed on the repair process but you must call and make an appointment to have this work completed.

Any owner may submit a complaint to the Administrator, National Highway Traffic and Motor Vehicle Safety Administration, 1200 New Jersey Avenue S.E., Washington, DC 20590 or call the toll free Auto Safety Hotline at 1-800-424-9393 (Washington D.C. area residents may call 366-0123) if the owner believes that:

- a. The manufacturer or dealer has failed or is unable to remedy the problem without charge.
- b. The manufacturer or dealer has failed or is unable to remedy the problem within a reasonable time.

If you no longer own your 2007 Starcraft RT camping trailer, please advise us of the name and address of the new owner, using the serial number on all correspondence.

Your safety and confidence in our products is important to us. We apologize for any inconvenience caused and thank you for your support of our products.

Sincerely,

A handwritten signature in cursive script, appearing to read "Joyce Skinner". The signature is written in black ink and is positioned above the printed name and title.
