Subject: ASET™ AC Fuel Injection Line Recall Kits

We are pleased to announce that we will restart the ASET™ AC Fuel Injection line recall on September 4. Some important information, including parts ordering information, is as follows:

- The new recall number is SC0324 (replaces SC0317).
- The repair kit number is 57GC2255.
- **The repair kit includes six new fuel injection lines and a label**
- The repair kit supply is limited; therefore, the release will occur in stages with the initial release on Sept. 4th affecting only 4,498 trucks.
- **We will be sending each dealer a specified amount of kits (see pages 2-4) that ranges from 2 to 50 kits. This will occur during the week of August 27.** The number of kits per dealer was determined by an analysis of:
 - The selling dealer of the 4,498 trucks, and
 - The number of fuel injection lines sold to each dealer during 2007, and
 - The number of repairs performed by each dealer under the original recall (SC0317)
- Dealers will be charged for these kits. The orders will be placed as stock orders. The P.O. number or Requisition number will be "Fuellines".
- **Dealers are to reorder replacement kits as they use repair kits from their inventory.**
- **Replacement kits CAN ONLY be ordered by calling 1-877-800-4945.** When placing an order, you MUST provide the chassis model and serial number of the truck or trucks that you used your inventory on.

If you have any questions concerning this information, please contact Mack by calling the dedicated phone number stated above or by email (vtna.regulatoryaffairs@volvo.com).
