URGENT - DISTRIBUTE IMMEDIATELY**

Date: October 3, 2007

Subject: Upcoming Noncompliance Recall 07149
Sunroof Operation

Models: 2007 Cadillac CTS Equipped with a Sunroof (RPO CF5)

To: All Cadillac Dealers

Attention: Dealer Operator, General Manager, Sales Manager,
Service Manager, Used Car Manager, Parts Manager
and Warranty Administrator

Based on information from the National Highway Traffic Safety Administration (NHTSA) website, the media may report that General Motors will be announcing a noncompliance recall involving certain 2007 model year Cadillac CTS vehicles equipped with a sunroof (RPO CF5).

These vehicles fail to conform to Federal Motor Vehicle Safety Standard 118 - Power Operated Window Systems. Under the Standard, the sunroof may only be closed when the ignition is on, or after the ignition is turned off, but before either of the front doors are opened. The subject vehicles may exhibit a condition where the sunroof can be closed after the ignition is turned off and the doors are opened.

To correct this condition, dealers are to install a wire harness.

A total of 9,648 vehicles are involved. Dealers will be notified when customer notification letters are scheduled to be mailed.

GM Vehicle Inquiry System (GMVIS) information for this recall will not be available until the recall bulletin is released to dealers.
