Re: Recall NHTSA 07T003000

Thank you for contacting Foreign Tire Sales, Inc.'s ("FTS") recall hotline and or website. This letter is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Foreign Tire Sales, Inc., ("FTS") has decided that a defect which relates to motor vehicle safety exists in certain Westlake, Compass and YKS Light Truck Radial Tires.

Safety Defect

Affected tires do not have a gum strip or they have an insufficient gum strip between the steel belts which may result in the tread and / or belts separating from the tire. If this happens, a driver could lose control and crash.

The tire sizes and models affected are as follows:

Size	Models	Partial D.O.T. Number
LT235 / 75R-15	CR861, CR857	7DT5FTS……..
LT235 / 85R-16	CR860, CR861, CR857	7DT2FTS……..
LT245 / 75R-16	CR860, CR861, CR857	7DT3FTS……..
LT265 / 75R-16	CR860, CR861, CR857	7DT4FTS……..
LT31X10.5 R-15	CR857, CR861	7DT6FTS……..

Please check the sidewall of your tire(s) to determine the size, model and DOT number. If your Westlake, Compass, or YKS tire is not one of the sizes noted above, it is not being recalled. If your tire is not one of the models listed above, it is not being recalled. If your tire does not contain the partial DOT numbers above, it is not being recalled. Only tires that were imported by FTS are involved in this recall.

Additional information may be obtained by going to www.foreigntire.com, or by

PDF created with FinePrint pdfFactory trial version http://www.pdffactory.com

calling the Foreign Tires Sales recall hotline at (888) 899-9293.

Please complete the consumer questionnaire included in this package. Once you have completed the questionnaire, you may return any affected tire(s) to the dealer where you purchased it (them). If that is not convenient, you may bring the tires to any tire dealer that is willing to replace the tires pursuant to the dealer instructions attached to the questionnaire

At no cost to you, the dealer will replace the tires on your vehicle with light truck radial tire(s) of comparable value and the same size. You must return your tires for replacement before October 25, 2007.

If the dealer determines that the replacement tire(s) are not appropriate for use on your vehicle, for example used on a vehicle mixing radial and non-radial tires, using different or improper size tires, or using improper or damaged wheels, the dealer will recommend an appropriate replacement. You may incur a charge if the correct tires for your vehicle are more costly than the replacement tires.

If you can not return the tire to the dealer you purchased it from, call the toll free number for the name and address of a dealer that will replace the tire at no cost to you.

How Long Will it Take?

The time needed for this service depends on how many tires you are replacing and how busy the dealer is. There could be a slight delay while FTS confirms the information that dealer provides FTS. It should take less than ½ hour per tire to replace the affected tires.

If the dealer doesn't make the repair promptly and without charge, you may contact The Foreign Tire Sales, Inc. recall hotline, at (888) 899-9293. You also may send a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590 or call the toll free Vehicle Safety Hotline 1-888-327-4236 (TTY: 800-424-9153); or go to http://www.safercar.gov.

We regret the inconvenience this service may cause you, but we want you to have the work done for your safety and satisfaction with your FTS imported tires.

Sincerely,

Richard Kuskin
President
