U.S. BUS CORPORATION SAFETY RECALL NUMBER 07V-069

Dear Valued U.S. Bus Corporation Customer:

This notice is being sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

U.S. Bus Corporation has decided that certain U.S. Bus school buses fail to conform to Federal Motor Vehicle Safety Standard No. 222, *School Bus Seating and Crash Protection*; specifically, the track-mounted C.E. White Student Safety Seats are not adequately secured to the vehicle.

The consequence of this issue is that, in the event of a crash, the seat could become dislodged from the floor track, causing injury and possible death to seated passengers. The remedy for this recall is to install reinforcements under the bus floor, along with additional legs on the seat.

Upon receipt of the enclosed Reply card, U.S. Bus Corporation will ship the necessary parts to effect this recall remedy to you, if you are capable of making the necessary repairs, or to the nearest repair facility-preferably our dealer, who has the expertise and equipment to make the repairs in a safe manner. Should there not be a U.S. Bus Corporation dealer in your area, we can authorize a local facility to do the work, based on our evaluation by telephone of their ability. Please fill in their telephone number on the reply card before mailing. Upon authorization of the repair facility, U.S. Bus Corporation will ship the necessary parts, along with detailed instructions to effect the repairs. These repairs will be made at no cost to you.

If you are the lessor of the above-mentioned vehicle, you must forward this letter to the lessee within ten (10) days of receipt of this letter.

If you are dissatisfied with U.S. Bus Corporation's action concerning this recall, you may notify the National Highway Traffic Safety Administration at (888) 327-4236; TTY (800) 424-9153; or go to <http://www.safercar.gov>.
