

March 21, 2007

Dear Coachmen Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Coachmen RV Company has decided that a defect which relates to motor vehicle safety exists in 2007 Capri Micro Travel Trailers, model 135RE. These vehicles were manufactured at Coachmen RV's Middlebury, Indiana facility from November 28, 2006 through January 5, 2007.

Safety Defect

On affected vehicles, the self-tapping screws that are used to secure the LP Bottle support tray to the trailer frame may fail. The support tray is mounted to the A-frame of the trailer and holds the LP bottles securely in place. Should these screws fail, the LP bottles could come loose, disengage from the trailer and cause an accident. The potential for failure will depend on road surface conditions. If significant contact were to occur over a period of time, the LP tank or lines could be damaged and potentially leak LP gas, which could result in a fire.

*Do not operate affected vehicles over extended distances until your vehicle has been repaired.*

Repairs

Please take your unit promptly to your Coachmen dealer. At no charge to you, the Coachmen dealer will perform the required repairs. The necessary repairs should not take more than (1) hour.

Refunds

If you have paid to have this service performed prior to receiving this notice, you can receive a full refund. Please mail your paid original invoice or receipt to Coachmen RV Services, P.O. Box 1000, Middlebury, Indiana 46540.

Changed Address or Sold The Vehicle?
