Dear Kenworth Customer,

Subject: 07KW7 – Horton Fan Blade in T660
Vin No.

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Kenworth Truck Company has decided that a defect which relates to motor vehicle safety exists in some 2008 model-year Kenworth T660's manufactured between August 8, 2006 and March 9, 2007, with Caterpillar C15 or Cummins ISX engines equipped with a Horton fan blade. Your vehicle has been identified as possibly having been manufactured with this defect.

In certain model T660's the Horton fan blade can develop micro-cracks which, if undetected, can develop into larger cracks which could cause the fan to break apart while turning, resulting in possible physical injury or equipment damage. This condition has been determined to be a safety-related defect.

Kenworth has initiated a recall to replace the Horton fan blade with a Borg Warner fan blade. For some chassis configurations, this fan blade change will also involve replacing the fan hub.
