REASON FOR NOTIFICATION

THOR California, Inc. has decided that a defect which relates to motor vehicle safety exists in certain 2005, 2006, and 2007 Jazz Model 2510FL TT travel trailers manufactured during the period from 12 March 2005 through 1 November 2007. According to our records, your trailer is in this group. For this reason we ask that you arrange for your dealer to correct your vehicle without delay. The service and required parts will be provided free of charge. If you have sold or traded your trailer, please fill out the enclosed postcard and mail it to THOR California so that we can locate the current owner of the trailer.

DESCRIPTION OF DEFECT

We have determined that on trailers affected by this recall, a possibility exists that under certain load and speed conditions, excessive vehicle sway could develop leading to a loss of vehicle control. This loss of control could lead to a vehicle crash resulting in personal injury or death.

DESCRIPTION OF REMEDY

The campaign to be implemented by THOR California to remedy the defect includes this notification to all current owners of the subject trailers. To correct the defect, your dealer will install weight compensating steel to the trailer A-frame and reinforce the axle hangers if necessary. The trailer weight certification labels will be replaced with new weight certification labels. Enclosed with this letter is a ***Guide to Trailer Loading and Weighing*** to help you properly load and weigh your trailer.

Failure to have this important recall completed may result in loss of trailer stability under certain load and speed conditions leading to excessive sway and loss of vehicle control. This loss of control could lead to a vehicle crash resulting in personal injury or death. Please have this recall performed as soon as possible. Failure to do so could legally be determined to be lack of proper maintenance of your trailer.
