

Dear General Motors Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect that relates to motor vehicle safety exists in certain 2002-2004 model year Buick Rendezvous; 2001-2004 model year Chevrolet Venture (regular wheelbase); and Pontiac Aztek and Montana (regular wheelbase) vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

I M P O R T A N T

- Your vehicle is involved in safety recall 06230.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.

Why is your vehicle being recalled?

Variations in the manufacturing process or exposure to high temperatures may lead to a fracture of the fuel tank inlet check valve on your vehicle. A fracture may allow fuel vapors to pass through and allow droplets of fuel to accumulate on the side of the fuel tank. If this condition occurred and a sufficient amount of fuel leaked out, and if an ignition source was present, a vehicle fire could occur.

What will we do?

Your GM dealer will replace the fuel tank. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 1 hour and 25 minutes.

What should you do?

You should contact your GM dealer to arrange a service appointment as soon as possible. Bring the enclosed customer reply form with you when you visit your dealer. The form identifies the repairs required. If you no longer own this vehicle, please let us know by completing the form and mailing it back to us.

Did you already pay for this repair?

The enclosed form explains what reimbursement is available and how to request reimbursement if you have paid for repairs for the recall condition.
