IMPORTANT RECALL INFORMATION # 70806

August, 2007

Dear Valued Fleetwood Travel Trailer Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Fleetwood Enterprises Inc., on behalf of its subsidiary manufacturing center located in Williamsport, Maryland has decided that certain 2007 model year Prowler, Terry, and Wilderness travel trailers, with model identifications 3902BDS, 390BDDS, and 390BHDS, fail to comply with the requirements of Federal Regulation 49, Part 567, "Certification".

WHAT IS THE PROBLEM?

Fleetwood Enterprises, Inc. has become aware of a possible tire pressure rating error on the Travel Trailer Manufacturer Federal Certification tag. The 10-ply tires originally supplied with the travel trailer and rated "Load Range E", require tire inflation pressures of 80 PSI (pounds per square inch). The Certification tags were printed with a tire pressure rating of 65 PSI. The tire air pressure rating, printed on the Certification tag, must correspond with the Load Range of tires currently installed on the travel trailer.

It is important for your safety that tires are inflated to the proper air pressure. Driving with under-inflated tires can cause or contribute to premature tire failure that could result in a loss of control of the vehicle, increasing the risk of a crash.

WHAT SHOULD YOU DO?

1. Verify that the tires on your travel trailer are stamped "Load Range E", as shown in the photograph at right.
2. Locate the original Travel Trailer Manufacturer Federal Certification tag, located on the forward road-side exterior of the travel trailer. Wipe off any dirt or debris with a clean, dry cloth. Mark out the information printed on the original Certification tag using a black permanent marker. Peel the backing off of the new Travel Trailer Manufacturer Federal Certification tag enclosed with this letter, and apply it directly over the original tag. The new tag should completely cover the original.

3. Use a tire gauge to verify the air pressure of each "Load Range E" tire is 80 PSI.

NOTE: According to the National Highway Traffic Safety Administration, you should allow the vehicle to remain parked for at least three hours before measuring tire air pressure in order to obtain an accurate reading.

IMPORTANT: After you have completed this procedure, please return the enclosed, pre-addressed **Vehicle Information Update Card** to Fleetwood.

If you do not feel comfortable installing these tags, you may take your travel trailer to any Fleetwood dealer and they will perform this service at no charge to you. When delivering your travel trailer for repairs, your dealer will complete a **Fleetwood Repair Order**. Upon completion of the repair, please sign the **Fleetwood Repair Order** and fill out the enclosed, pre-addressed **Vehicle Information Update Card** and return it to Fleetwood.

If you have changed your address or sold the travel trailer, please take a moment to provide the name and address of the person or dealership you sold it to on the enclosed **Vehicle Information Update Card**, and return it to Fleetwood. This will enable us to update our records and if necessary, notify the new owner.

If you have had this concern corrected previously, you may be eligible for reimbursement of your cost for the repair. For more information regarding this Recall #70806, contact Fleetwood Customer Service at (800) 445-3307.

For leased vehicles: Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

If you are unable to obtain the specified repair promptly and without charge, please contact:

Fleetwood Customer Service – Recall 70806
P.O. Box 7638
Riverside, California 92513-7638
(800) 445-3307

If you believe that the dealer and Fleetwood Enterprises, Inc. have failed or have been unable to remedy the defect without charge or within a reasonable period of time, you may submit a complaint to:

Administrator
National Highway Traffic Safety Administration
1200 New Jersey Avenue, SE
Washington, DC 20590

Or call the toll-free Vehicle Safety Hotline at 1-888-327-4236
(TTY: 1-800-424-9153)

Or go to
<http://www.safercar.gov>

Fleetwood Enterprises, Inc. is taking these steps in the interest of your safety. We regret any inconvenience this may cause you.

Sincerely,
FLEETWOOD ENTERPRISES, INC.
