## Copy of Letter to Owner Subject: TRW Steering Columns

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. This notice is also sent in accordance with the Canadian Motor Vehicles Safety Act.

Freightliner LLC, on behalf of its Freightliner Trucks Division, has decided that a defect that relates to motor vehicle safety exists on specific Freightliner Century Class S/T, Columbia, and Coronado vehicles with TRW global adjustable upper steering columns manufactured between February 20, 2006, and July 6, 2007.

The upper tilt plate bolts on certain TRW Global steering columns may loosen with use and fall out. Steering columns with missing bolts may fracture at the steering column bracket and will not hold the steering wheel in position. Loss of the steering wheel position may cause the steering to respond differently than expected and could result in a possible vehicle crash without prior warning.

The tilt plate bolts will be inspected and replaced if necessary.
