**SAFETY RECALL CAMPAIGN #2098
ALL 2007 GSX-R1000K7 MODELS
IDLE SPEED CONTROL VALVE REPLACEMENT**

Dear Suzuki Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

What is the reason for this notice?

Suzuki Motor Corporation has decided that a defect relating to motor vehicle safety exists in all 2007 GSX-R1000K7 model motorcycles. Suzuki Motor Corporation is conducting a voluntary Safety Recall Campaign. According to our records, you are the owner of one of these motorcycles.

What is the problem?

Suzuki Motor Corporation has determined that all GSX-R1000K7 motorcycles are equipped with an Idle Speed Control (ISC) Valve that may not return to the correct start-up position each time the ignition switch is turned to the off position. Due to improper shape of the internal mechanism that moves the ISC valve, the valve may remain in the open position instead of moving to the correct start-up position. This can result in **no-load** engine idle speeds as high as 5000 RPM's the next time the engine is started. If you choose to operate the motorcycle in this condition, you may have difficulty operating the motorcycle, which could result in a crash.

▲ WARNING

**SUZUKI STRONGLY RECOMMENDS THAT YOU DO NOT RIDE YOUR
AFFECTED 2007 GSX-R1000K7 MOTORCYCLE UNTIL THE REPAIR HAS
BEEN COMPLETED**

To minimize the risk of injury or death, do not ride, or allow anyone else to ride, your motorcycle until your motorcycle has been repaired by your Suzuki dealer.

What is Suzuki doing to solve the problem?

Suzuki is recalling affected units for the installation of an improved ISC valve and Engine Control Module (ECM). The new ECM contains revised programming which controls the ISC valve functions related to idle speed. The ISC valve related ECM changes have no effect on overall performance of the motorcycle. Repair time is approximately 1 hour and will be done at no cost to you for parts or labor.

How do I receive the fastest possible service?

Suzuki understands that your riding time is precious. Our suggestion is to work closely with your authorized Suzuki dealer to get your motorcycle's recall service scheduled and performed as quickly as possible. Schedule an appointment for the recall service to be performed. Parts are currently available. It will be necessary for your dealer to order the parts. It may be necessary to leave your motorcycle with the dealer overnight, so check with your dealer.

When you pick up your repaired motorcycle, please allow a few extra minutes for your dealer to prepare and complete the necessary warranty paperwork with you. If you have special circumstances, discuss them with your Suzuki dealer. Suzuki understands that some customers may have difficult circumstances to overcome in bringing their motorcycle to the dealership for repair. We have asked your Suzuki dealer to work closely and flexibly with you to arrange alternative, but reasonable solutions for your special requests. Please remember, however, that each dealership has its own limitations in providing special assistance due to staff size, available time, and dealership location. Your dealer can also consult with Suzuki on other alternatives.
