Dear Ducati Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act & Transport Canada.

Ducati Motor Holding S.P.A. has decided that a defect that relates to motor vehicle safety exists in certain HYPERMOTARD M.Y. 2008 motorcycles.

- The affected HYPERMOTARD models were manufactured from 3-07-07 to 6-29-07

Our records show that you are the owner of a Ducati motorcycle affected by this safety recall campaign notice. Please take the time to read this letter and help us take the appropriate steps to ensure that your vehicle is operating properly.

Description of defect:

Ducati Motor Holding S.P.A. has determined that it is possible that the battery can move in its housing in the fuel tank. This could result in main wiring harness cable damage at the battery terminals. This condition could cause a loss of electrical power, possibly stopping the engine. If the engine stopped while the motorcycle was being driven, it could increase the risk of a crash.

Precautions - Your appointment with your Ducati dealer:

We request that you contact your authorized Ducati dealer as soon as possible and make an appointment so that the required free of charge service can be performed without delay. If you are not the only rider of this motorcycle, please

advise all other riders of this important information. You may continue to ride this motorcycle; however, if you chose to do so, do not leave this problem unattended.

**Description of Remedy:**

Your Ducati dealer will install a battery mounting bracket and two Velcro strips that will prevent the battery from moving inside its housing.

**Service Problem Help:**

If you believe that your dealer has failed or is unable to perform the service within a reasonable period of time, please write to:
