

December 5, 2007

Dear Coachmen Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Coachmen RV Company has decided that a defect which relates to motor vehicle safety exists in 2006 Aurora Motorhomes, model numbers 3180DS, 3480DS, 3580TS and 3650TS. These vehicles were manufactured at Coachmen RV's Middlebury, Indiana facility from November 9, 2005 through May 2, 2006.

Safety Defect

On affected vehicles, the spare tire carrier assembly mounted under the rear of the unit is the incorrect model to properly support the spare tire for your vehicle. As a result, the potential exists for the spare tire to become detached from the carrier assembly and fall to the road surface. Should the spare tire detach itself from the carrier while the vehicle is in motion, a crash may result. *Do not operate affected vehicles without first removing the spare tire from the carrier assembly.*

Repairs

Please take your unit promptly to your Coachmen dealer. At no charge to you, the Coachmen dealer will install the correct spare tire system and also a secondary mechanical back-up latch. The necessary repairs should not take more than (3) hours to complete.

Refunds

If you have paid to have this service performed prior to receiving this notice, you can receive a full refund. Please mail your paid original invoice or receipt to Coachmen RV Services, P.O. Box 1000, Middlebury, Indiana 46540.
