Dear General Motors Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that certain 2007 model year Chevrolet Equinox and Pontiac Torrent vehicles built without a head-curtain side impact air bag or without a sunroof fail to conform to Federal Motor Vehicle Safety Standard 201, Occupant Protection in Interior Impact." As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

- Your vehicle is involved in recall 07281.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.

### **Why is your vehicle being recalled?**

In tests, the Standard's requirement was exceeded at one of the interior occupant protection test points. If a front seat occupant's head contacts that point in a crash, the occupant's injury could be increased.

### **What will we do?**

Your GM dealer will install an energy-absorbing device on the driver's and passenger's side of the headliner. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 25 minutes.

If your vehicle is within the New Vehicle Limited Warranty your dealer may provide you with shuttle service or some other form of courtesy transportation while your vehicle is at the dealership for this repair. Please refer to your Owner's Manual and your dealer for details on courtesy transportation.

### **What should you do?**

You should contact your GM dealer to arrange a service appointment as soon as possible. Bring the enclosed customer reply form with you when you visit your dealer. The form identifies the repairs required. If you no longer own this vehicle, please let us know by completing the form and mailing it back to us.
