Subject: Windshield Wiper Motor Ground Wires

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. This notice is also sent in accordance with the Canadian Motor Vehicles Safety Act.

Daimler Trucks North America LLC, on behalf of its Freightliner Trucks Division, has decided that a defect that relates to motor vehicle safety exists on specific Freightliner Century Class S/T, Columbia, and Coronado vehicles manufactured between January 3, 2007, and October 24, 2007, with a certain windshield wiper motor harness.

A windshield motor ground wire was omitted from a new wiring harness design. Without this ground wire, the windshield wiper motor may function intermittently or not at all. In certain conditions, this could impair visibility, resulting in a possible vehicle crash if the vehicle is not stopped safely.

A ground wire will be added to the windshield wiper motor harness.
