VEHICLE SAFETY DEFECT SERVICE BULLETIN
Recall Campaign No. 07V547

Re: Safety Recall – Plant 17 Towable Converter Wiring

Dear Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

R-Vision, Inc. has decided that a defect which relates to motor vehicle safety exists in certain 2007 Trail-Sport, Trail-Cruiser, Trail-Lite, Trail-Lite Cross Over, and Boogie Box. Also involved are 2008 Super Sport, Trail-Sport, Trail-Cruiser, and Trail-Lite Cross Over units. These units were manufactured from August 24, 2006 through September 17, 2007. These travel trailers fail to conform to National Electric Code 551.54(C) for the reason described below. Accordingly, R-Vision, Inc. has initiated a voluntary safety recall campaign.

According to our information, your unit identified on the enclosed form is affected. *Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.*

R-Vision determined the converter was being miswired to the load center. Specifically, the converter neutral wire is connected to the bonding (ground) bar instead of the neutral bar. The location of the code violation is in the 120 volt load center distribution panel for the affected vehicles. If the coach doesn't have an earth ground, the coach and certain objects may become "hot" with 120 volts seeking ground. This could lead to a situation with a shock hazard and potentially cause personally injury.

The remedy will involve the removal of the neutral wire from the bonding (ground) bar and installation on the neutral bar, both of which are located in the load center of the affected vehicle. The recall repair will be performed at no cost to you. If you had the defect, which is the subject of this letter, remedied prior to receiving this letter, you may be eligible for reimbursement by R-Vision for your remedy costs.

You may contact your R-Vision dealer to arrange for a service appointment. Instructions for making this correction have been sent to your dealer and parts are readily available. The labor time necessary

to perform this recall campaign is approximately 0.5 hours. Please ask your dealer if you wish to know how much additional time may be needed to schedule and process your travel trailer.

The vehicle owner is responsible for having this service action performed. R-Vision, Inc. reserves the right to deny coverage for any vehicle damage or coincidental damage that may result from failure to have this recall performed in a timely manner. Therefore, please have this recall performed as soon as possible.

Please take a copy of this letter with you to your appointment for repairs. This letter will serve as notification to have your unit inspected at no charge to you. If you have sold or traded your vehicle, or for any reason cannot have this recall service performed, please contact us at the phone number listed above as soon as possible.

Your R-Vision dealer is best equipped to provide service to ensure your travel trailer is corrected as promptly as possible. If, however, you take your unit to your dealer on the agreed service date and the dealer does not remedy this condition on that date or within three (3) days, please call your R-Vision Towable Warranty Advisor at 1-800-784-1498.

If, after contacting your dealer, and R-Vision, you believe R-Vision, Inc. has failed or has been unable to remedy the noncompliance without charge or there has been an unreasonable delay in securing the remedy, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue SE, Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY:1-800-424-9153); or go to <http://www.safercar.gov>.

We apologize for any inconvenience that this may cause you. However, we have taken this action in the interest of your safety and continued satisfaction with your R-Vision, Inc. Travel Trailer.

Sincerely,

Angela Stine
Warranty Manager
