

March 11, 2008

Dear Girardin Minibus Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Girardin has decided that certain MY 2007 and 2008 G5 model school and commercial buses manufactured between November 22, 2007 and December 21, 2007 inclusive and equipped with Ricon 5500 series platform lifts fail to conform to Federal Motor Vehicle Safety Standard No. 403, "Platform Lift System for Motor Vehicles."

Our records show that the lift, identified above, has been installed in your vehicle and is affected by this recall according to the information provided by Ricon Corporation.

What the safety Issue is:

The non-compliance with S6.1 of the FMVSS 403 is the result of the Threshold Warning System not detecting the presence of a wheelchair or mobility aid user in a certain spot within the defined threshold area. In the event this condition occurs during passenger operations the wheelchair or mobility aid user may move toward the vehicle lift door when the lift platform is below floor level. This situation could cause personal injury.

What we are asking you to do:

Please follow Ricon Corporation instructions below.
