

**Special Service Campaign 70G
2007 Model Year Tundra 4WD Rear Propeller Shaft
SAFETY RECALL NOTICE**

Dear Toyota Customer:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Toyota has decided that a defect, which relates to motor vehicle safety, exists in the Rear Propeller Shaft of certain 2007 model year Tundra 4WD vehicles.

What is the problem?

On certain 2007 model year Tundra 4WD vehicles, a joint in the Rear Propeller Shaft may have been improperly heat treated, resulting in insufficient hardness. In this condition, a section of the Rear Propeller Shaft may separate at the joint. In the worst case, the Rear Propeller Shaft will come in contact with the road surface or fuel tank and result in a loss of vehicle control or fuel leak, thus increasing the possibility of a crash or vehicle fire.

What will Toyota do?

Any Toyota dealer will inspect the involved joint in the Rear Propeller Shaft to assure it has the correct hardness. If the hardness is not correct, the dealer will replace the Rear Propeller Shaft. The inspection and, if necessary, the Rear Propeller Shaft replacement, will be performed at **NO CHARGE** to you.

What should you do?

This is an important Safety Recall

Please contact your authorized Toyota dealer to make an appointment to inspect the Rear Propeller Shaft as soon as possible. Most vehicles will only require an inspection which will take approximately 30 minutes. However, depending upon the dealer's work schedule and the inspection results, it may be necessary to make your vehicle available for a longer period of time.

If replacement of the Rear Propeller Shaft becomes necessary, due to the several variations of the Rear Propeller Shaft, your dealership will need to order the parts specific to your vehicle. As these parts are not normally stocked by dealerships, it will take a few days for the dealer to receive them. The Toyota dealer will make every effort to assure your utmost convenience during this waiting period.

We request that you present this notice to the dealer at the time of your service appointment.

If you no longer own the vehicle, please indicate so on the enclosed postage-paid form, providing us with the name and address of the new owner.

What if you have other questions?

Your local Toyota dealer will be more than happy to answer any of your questions and set up an appointment to perform this important Safety Recall. If you require further assistance, you may contact the Toyota Customer Experience Center at 1-888-270-9371 Monday through Friday, 5:00 am to 6:00 pm, Saturday 7:00 am through 4:00 pm Pacific Standard Time.

If you believe that the dealer or Toyota has failed or is unable to remedy the defect within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, DC 20590 or call the toll free Vehicle Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to <http://www.safercar.gov>.

If you are a vehicle lessor, Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

We have sent this notice in the interest of your continued satisfaction with our products, and we sincerely regret any inconvenience this condition may have caused you.

Thank you for driving a Toyota.

Sincerely,

TOYOTA MOTOR SALES, U.S.A., INC.
