VEHICLE SAFETY DEFECT SERVICE BULLETIN
Recall Campaign No. 07V582000
Monaco File R07039

Re: Safety Recall – Exposed Terminal Post

Dear Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Monaco Coach Corporation has decided that a defect which relates to motor vehicle safety may exist in certain Class A motorhomes manufactured from December 5, 2006 through January 10, 2008. The affected vehicles are certain 2007-2008 Holiday Rambler Arista and Safari Passage Class A motorhomes built on a Ford chassis.

According to our information, your unit identified on the enclosed form is affected. *Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.*

Monaco determined that when these motorhomes were designed, the front run panel had an exposed terminal post on its side allowing the oil dipstick on the Ford chassis units only to potentially make contact when checking oil level. The location of the exposed terminal post is under the front engine access hood. When the oil level is checked, it may be possible for the dipstick to contact the exposed wire terminal stud. If other end of dipstick is grounded, this could result in an electrical shock or a spark that could create a fire. As a precautionary measure, Monaco Coach Corporation has elected to perform this voluntary safety recall campaign.

The remedy will consist of a Monaco dealer installing an abs cover to protect the exposed terminal post. The recall repair will be performed at no cost to you. If you had the defect, which is the subject of this letter, remedied prior to receiving this letter, you may be eligible for reimbursement by Monaco Coach Corporation for your remedy costs.

You may contact your Monaco Coach Corporation dealer to arrange for a service appointment. Instructions for making this correction have been sent to your dealer and parts are readily available.

The labor time necessary to perform this recall campaign is approximately 0.1 hours. Please ask your dealer if you wish to know how much additional time may be needed to schedule and process your motorhome.
