Recall Subject: Drawbar Hinge Assembly Bolts

NHTSA Safety Recall Campaign Number: 07V-174

Notification to Purchasers began: Mid January, 2007

Notification to Purchasers Completed: Ongoing, approx 96% complete (454 of 466 notified) Revised

Total Number of Vehicles Involved: 466 (Revised downward from original 508)

Total Number of Vehicles Inspected and Remedied: 428

Total Number of Vehicles Inspected and not Requiring Remedy:

Note: We are requiring inspection of all vehicles involved, whether or not bolts need replacing.

Vehicles Determined to be Unreachable:

Note: Two (2) vehicles have been determined to have been wrecked in transit from Spokane, Washington. There are two (2) cancelled orders and one (1) duplicate order that are in this count. The original count of 508 was revised downward to 466 on May 22, 2007 due to initial incorrect calculations on my part.

10/24/07 In conclusion, we have contacted all salesmen and distributors/dealers of our Safety Recall Campaign. We have shipped recall kits (which include the "Customer Letter", drawings and instructions for inspecting and/or replacing the suspect bolts, a response sheet, and 2ea bolts & lockwashers) to all but twelve 12 customers. I am still working with Cotati personnel on these units.
