Total Number of Vehicles Inspected and not Requiring Remedy:

Note: We are requiring inspection of all vehicles involved, whether or not bolts need replacing.

Vehicles Determined to be Unreachable:

Note: Other than 2 vehicles that were wrecked during transit from Spokane, Washington to Cotati, California, we are still in the process of contacting customers and shipping recall kits.

04/19/07

In conclusion, we have contacted all salesmen and distributors/dealers of our Safety Recall Campaign. We have shipped recall kits (which include the "Customer Letter", drawings and instructions for inspecting and/or replacing the suspect bolts, a response sheet, and 2ea bolts & lockwashers) to approximately 450 customers. We are still working with our distributors/dealers to get customer names, addresses and phone numbers for shipment of the remaining recall kits.
