

IMPORTANT RECALL NOTICE

November 26, 2008

Dear Volvo Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

In the past, a letter was sent to eligible vehicle owners announcing a Safety Recall on the Fuel Pressure Sensor. Our records indicate that this important safety recall has not been completed. Please schedule an appointment at your local authorized Volvo retailer as soon as possible to have this important safety recall performed at no charge.

The reason for this campaign:

Volvo Cars of North America, LLC. (Volvo) has decided that a defect related to motor vehicle safety exists in the fuel pressure sensor of certain model 2003-2004 S60 and V70 vehicles.

In certain vehicles, the fuel pressure sensor may crack, sending an incorrect signal to the Electronic Control Module (ECM). When this occurs, the Check Engine Light will illuminate and the vehicle may experience a loss of power, increasing the risk of a crash.

The corrective action will be to replace the fuel pressure sensor with a part of a modified design.

What you need to do:

Please call your authorized Volvo retailer as soon as possible to schedule an appointment. This procedure will be completed at no cost and will take approximately one hour. Due to service scheduling, your Volvo retailer may require your vehicle for a longer period of time.

If you previously paid to have this corrective action performed, your authorized Volvo retailer will honor your receipt with a refund. Please contact the Service Department for details.
