RE: Defect Information Report: Vehicles Equipped with
Certain Refrigerators Manufactured by Dometic Corporation

Dear Valued Customer:

Teton Homes Corp has been advised by Dometic Corporation that certain Dometic refrigerators installed as original equipment in some of Teton Homes recreational vehicles made under the model lines of Experience, Tradition, Prestige, Grand, Expedition, and Royal may contain a defect that relates to motor vehicle safety because they may experience a leak of pressurized coolant solution which can result in a vehicle fire under certain specific circumstances. The refrigerator models that Teton Homes used in the production of our recreational vehicles were Dometic; NDR 1062, RM 2652, RM 2662, RM 2663, RM 2852, RM 2862, RM 3662, RM 3663, RM 3862. The serial numbers of these potential problem refrigerators are following

Serial Numbers: 320xxxxx through 352xxxxx
401xxxxx through 452xxxxx
501xxxxx through 552xxxxx
601xxxxx through 639xxxxx

On the basis of that Dometic determination, Teton Homes Corp. has decided that there may be a potential safety defect in its vehicles equipped with the identified refrigerators, and we therefore submitting the enclosed Defect Information Report pursuant to 49 CFR Part 573.

If you have any question, please do not hesitate to contact the undersigned at 307-235-1525 Monday through Friday, 8:00 am through 5:00 pm Mountain Time. By e-mail at tetonwarranty@alluretech.net or by fax at 800-733-3792.

Sincerely,

Nick Keller
Warranty Manager

DEFECTS INVESTIGATION
RECALL MGMT DIV.

DEFECT INFORMATION REPORT

The manufacturer of the vehicles covered by this Report is;

Teton Homes Corp
P. O. Box 2349
Mills, Wyoming 82644

Vehicles Involved:

The vehicles covered by this Report are recreational vehicles that were equipped with certain models of refrigerators manufactured by Dometic Corporation between June 1, 2003 through September 30, 2006. The vehicle models in question are follows:

Teton Homes; Royal Teton Homes; Grand Teton Homes; Experience

Vehicles were manufactured during the period from June 1, 2003 through September 30, 2006.

3. Total number of vehicles;

The total number of vehicles covered by this Report is 123 units.

4. Approximate percentage of vehicles estimated to actually contain the defect;

Based on information received from Dometic, Teton Homes Corp. believes that approximately 10% percent of these vehicles actually contain the defect.

5. Description of the defect;

Under some circumstances, a fatigue crack can develop in the boiler tube of the covered refrigerators, which can permit the release of pressurized coolant solution. If this solution is exposed to an ignition source under certain specific circumstances, it can result in a vehicle fire.

6. Chronological summary of events leading to this determination;

Dometic advised Teton Homes Corp of its defect determination by letter dated June 23, 2008. Teton Homes Corp. is not aware of any fires in its vehicles that appear to be related to this defect. Nevertheless, after reviewing the matter, Teton Homes Corp. decided to submit this defect report.

7. Program for remedying the defect;

Dometic has arranged to conduct a recall to remedy the potential defect in Teton Homes Corp. vehicles at no charge to vehicle owners. See Recall No. 06E-076. Pursuant to 49 CFR 573.6(c)(8)(i) and 573.13, owners will be advised that Dometic will reimburse them if they have incurred costs to obtain a remedy for a refrigerator containing such defect prior to their receipt of the notification.
