from 4/1/05 to 10/30/07	

Identify the approximate percentage of the production of all the recalled models manufactured by your company between the inclusive dates of manufacture provided above, that the recalled model population represents. For example, if the recall involved Vehicles equipped with certain items of equipment from Jannary 1, 1996 through April 1, 1997, then what was the percentage of the recalled Vehicles of all Vehicles manufactured during that time period.

100%

Т

II. Identify the Recall Population

3. Furnish the total number of vehicles recalled potentially containing the defect or noncompliance.

Model		Year	Number of Vehicles Potentially Involved
Wheelchair	accessible	2005-2007	267
Vans			
		,	
·	· · · · ·		
Total Number Pote	ntially Affected by th	e Recall:	267

4. Furnish the approximate percentage of the total number of vehicles estimated to actually contain the defect or noncompliance:

Identify and describe how the recall population was determined—in particular how the recalled models were selected and the basis for the beginning and final dates of manufacture of the recalled vehicles:

III. Describe the Defect or Noncompliance

5. Describe the defect or noncompliance. The description should address the nature and physical location of the defect or noncompliance. Illustrations should be provided as appropriate.

Describe the cause(s) of the defect or noncompliance condition.

close to each to the Sensor beams ave other

Describe the consequence(s) of the defect or noncompliance condition.

This fails to reflect occupant.

Identify any warning which can (a) precede or (b) occur.

none

If the defect or noncompliance is in a component or assembly purchased from a supplier, identify the supplier by corporate name and address.

Ricon Corporation 1900 Nelson Rd. Panorama City CA 91402

Identify the name and title of the chief executive officer or knowledgeable representative of the supplier:

Ŧ

IV. Provide the Chronology in Determining the Defect/Noncompliance

If the recall is for a defect, complete item 6, otherwise item 7.

6. With respect to a defect, furnish a chronological summary (including dates) of all the principle events that were the basis for the determination of the defect. The summary should include, but not be limited to, the number of reports, accidents, injuries, fatalities, and warranty claims.

7. With respect to a noncompliance, identify and provide the test results or other data (in chronological order and including dates) on which the noncompliance was determined.

the notice	from	Ricon	was	the	determination
of the de	fect,				

V. Identify the Remedy

8. A description of the manufacturer's program for remedying the defect or noncompliance. This program shall include a plan for reimbursing an owner or purchaser who incurred costs to obtain a remedy for the problem addressed by the recall within a reasonable time in advance of the manufacturer's notification of owners, purchasers and dealers, in accordance with §573.13 of this part. A manufacturer's plan may incorporate by reference a general reimbursement plan it previously submitted to NHTSA, together with information specific to the individual recall. Information required by §573.13 that is not in a general reimbursement plan shall be submitted in the manufacturer's report to NHTSA under this section. If a manufacturer submits one or more general reimbursement plans, the manufacturer shall update each plan every two years, in accordance with §573.13. The manufacturer's remedy program and reimbursement plans will be available for inspection by the public at NHTSA headquarters.

the remedy will be applied as described in the	
OEM letters that were sent out. Repolacement of the threash	101d
warning system metal lovers and optical sensor mounting retain.	
will correct the noncompliance. Ricon will provide a kit for field	
replacement at no charge.	

Т

9. Furnish a description of the manufacturer's remedy for the defect or noncompliance. Clearly describe the differences between the recall condition and the remedy.

change out the sensor housing on We will non compliant lifts, the Clearly describe the distinguishing characteristics of the remedy component/assembly versus the recalled component/assembly. the sensors are located further apart. Identify and describe how and when the recall condition was corrected in production. If the production remedy was identical to the recall remedy in the field, so state. If the product was discontinued, so state. the sensor covers were changed in production effective October 10th 2007

VI. Identify the Recall Schedule

Т

10. Furnish a schedule or agenda (with specific dates) for notification to other manufacturers, dealers/retailers, and purchasers. Please, identify any foreseeable problems with implementing the recall.

As soon as possible

VII. Furnish Recall Communications

11. Furnish a final copy of all notices, bulletins, and other communications that relate directly to the defect or noncompliance and which are sent to more than one manufacturer, distributor, or purchaser. This includes all communications (including both original and follow-up) concerning this recall from the time your company determines the defect or noncompliance condition on, not just the initial notification. A DRAFT copy of the notification documents should be submitted to this office by Fax (202-366-7882) or by E-Mail to for review prior to mailing.

<u>Note</u> that these documents are to be submitted separately from those provided in accordance with Part 579.5 requirements.
