SAFETY RECALL NOTICE

Dear Dealer:

Motion Pro, Inc., has determined that some of its aftermarket motorcycle brake levers contain a defect that relates to motor vehicle safety, and it has initiated a voluntary recall program to address that defect. The Motion Pro part number for these brake levers is 14-0415. Our records indicate that some of the brake levers covered by this recall may have been provided to your company for resale.

When these brake levers are installed on certain Suzuki motorcycles, they may not properly engage the stop lamp switch on the motorcycles. If this occurs, the stop lamp on the motorcycle will not deactivate when the driver releases the brake lever, and a following driver would not be aware when the brakes on the motorcycle were applied.

Motion Pro will honor all returns of the covered items and will refund the full price paid for them.

Please check your inventory of this part number to determine whether you currently have any brake levers items covered by this recall. If you do, please call Motion Pro toll free at 877-438-7831 to make arrangements to return those items for a full refund.

Please note that it is a violation of Federal law to sell any of the items covered by this recall.

If you have any questions about this recall, please call us toll free at 877-438-7831.

Sincerely,

Kevin Veltfort
Director of Operations
Motion Pro, Inc.
