URGENT - DISTRIBUTE IMMEDIATELY**

Date: January 31, 2008

Subject: Upcoming Noncompliance Recall 08016
Headliner Trim – Energy Absorption Capability

Models: 2006-2008 Chevrolet HHR

To: All Chevrolet Dealers

Attention: Dealer Operator, General Manager, Sales Manager, Service
Manager, Used Car Manager, Parts Manager and Warranty
Administrator

Based on information from the National Highway Traffic Safety Administration (NHTSA) website, the media may report that General Motors will be announcing a noncompliance recall involving certain 2006-2008 model year Chevrolet HHR vehicles.

Some vehicles not equipped with optional Roof Rail Air Bags, fail to conform to Federal Motor Vehicle Safety Standard 201, "Occupant Protection in Interior Impact." In tests, one of the upper interior occupant protection test points exceeded the Standard's requirement.

To correct this condition, dealers are to install an energy-absorbing plastic piece to the headliner trim.

A total number of 181,516 U.S. vehicles are involved. Based on expected parts availability, GM anticipates releasing the recall bulletin and mailing customer notification letters in late March 2008.

GM Vehicle Inquiry System (GMVIS) information for this recall will not be available until the recall bulletin is released to dealers.
