**SUBJECT: Campaign 084 - 2007/2008 Santa Fe - Gross Axle Weight Rating
(GAWR) Correction Label Installation**

Hyundai Motor America is conducting a Customer Notification for a Gross Axle Weight Rating Correction Label Installation campaign on 2007 and 2008 Model Year Santa Fes that were equipped at the assembly plant with 18 inch tires and wheels.

This campaign provides a procedure to install a corrected GAWR label only on vehicles with 18 inch factory installed tires and wheels.

In order to identify only those vehicles affected by Campaign 084, it will be necessary to access Hyundai Motor America's "Warranty Vehicle Information" screen via DCS On-line before installing a corrected GAWR label. The "Warranty Vehicle Information" screen will identify affected vehicles with an open Campaign 084. All in-stock vehicles, if any, must have Campaign 084 completed prior to retailing.

Enclosed with the Service Manager's letter are materials, which were developed for your use: Dealer Letter, five (5) copies of the Technical Service Bulletin (TSB#08-01-007) containing instructions on performing the service and submitting the campaign claim, and a VIN listing of your dealer stock vehicles only. TSB #08-01-007 will be available on Hyundai's Website on June 11, 2008.

All Hyundai dealers will be shipped GAWR Labels for 100% of their in-stock vehicles starting June 11, 2008. Additional labels can be ordered from your facing PDC.

Customer notification letters, including a label, will be mailed to all affected customers at a later date.

It is IMPORTANT TO SUBMIT A CAMPAIGN CLAIM FOR EACH VEHICLE SERVICED so your dealership can be compensated for your work and Hyundai can maintain accurate records of campaign completions.
