DCS2114

URGENT - DISTRIBUTE IMMEDIATELY

Date: September 4, 2008

Subject: Upcoming Noncompliance Recall 08157
Instrument Panel Storage Bin Door

Models: Certain 2006-2008 Chevrolet HHR

To: All Chevrolet Dealers

Attention: Dealer Operator, General Manager, Sales Manager, Service Manager,
Used Car Manager, Parts Manager and Warranty Administrator

Based on information from the National Highway Traffic Safety Administration (NHTSA) website, the media may report that General Motors will be announcing a noncompliance recall involving certain 2006-2008 model year Chevrolet HHR vehicles.

These vehicles fail to conform to Federal Motor Vehicle Safety Standard 201, "Occupant Protection in Interior Impact." In tests, the door on the storage bin in the top center of the instrument panel failed to remain closed as required.

To correct this condition, GM will mail to customers a latch reinforcement. Customers will be given instructions to install the part or have their dealer install it.

A total number of 296,422 vehicles are involved. GM is working with its suppliers to obtain the required latch reinforcements as quickly as possible. Based on the current schedule, we anticipate that parts will be available in November, 2008.

GMVIS information for this recall will not be available until the dealer bulletin is released. Customer notification letters will be mailed in late November, 2008.
